

TruFlex™ Server Managed Network Services

Complementary to your TruFlex™ Dedicated Server, Hostway offers multiple types of managed network devices such as managed firewall, load balancing and extra storage. Hostway empowers customers to expand their Web operations without being hindered by resource or knowledge limitations.

Benefits:

- > Built and managed according to your specifications
- > Tested and proven technology
- > Flexibility to grow and change with your needs
- > Cost management
- > World-class data centers
