

## Features Available

### Only Through Hostway

#### **SiteControl:**

**Web-based Account Management at your fingertips.**

Hostway's control panel, SiteControl, combines state-of-the-art technology with an intuitive user interface to make managing your hosting account quick and painless. SiteControl is an award-winning control panel that puts account management right at your fingertips. Available with all plans, SiteControl is another Hostway tool that makes Web hosting easier.

#### **SiteMail:**

**Web-based email made easy and affordable.**

Email has revolutionized communication channels worldwide by enabling people to update others inexpensively and quickly. With Hostway's easy and intuitive Web-based email system, SiteMail, it's never a hassle to communicate—no matter where you are. All you need is a browser to stay connected! SiteMail is an easy-to-use and feature-packed email system that gives users the power and convenience of Web-based email with more.

#### **CleanMail:**

**The ultimate spam and virus filter helps you take control of your inbox.**

Now you can easily protect your inbox from annoying spam and keep viruses from infecting your computer with Hostway CleanMail. CleanMail keeps your inbox spam and virus free with the following features:

- > Scans all messages for the most notorious spam elements
- > Identifies and classifies spam into different category levels, so there's minimal lost information risk
- > Scans for viruses and deletes messages before they reach you, enabling you to continue your business operations, worry free
- > Sends notification message to email address from which the virus was sent to prevent the unwitting spread of viruses
- > Virus definitions are consistently updated so you're never caught unaware
